- Contemporary house: let one sculptural element (topper or collar) be the statement.

Step by step

- 1 Shape the tree from the bottom up: separate every tip, half pointing up and half out.
- 2 Add the topper first, while you can still reach and adjust the top.
- 3 Ribbon or garland next: drape in loose diagonal waterfalls from top to bottom, tucking it into the branches every 12 in.
- 4 Hang the largest ornaments deep inside the tree for glow and depth, then medium ones on the outer tips.
- 5 Add picks last, angled outward in a loose spiral so the eye travels around the tree.
- 6 Turn the lights on, squint, and fill any dark holes.

Make it designer: pick ONE look and commit. Hang ornaments in triangles of 3 and push a third of them deep into the branches. Depth is the secret of every showroom tree.
